

The longitudinal profile displays the road's elevation (red line) and terrain (grey line) across a series of stations. Key features include:

- Stationing:** Ranges from 405.00 to 500.00.
- Elevations:** Terrain elevations are listed in the bottom row (e.g., 411.33, 411.36, 411.42). The road elevation is shown as a red line with grades of 1.0%, 3%, 10.0%, and 1.4%.
- Labels:** "Rheinlandweg rechts" (top left), "Wiederaufforstung" (green wavy line), "Südenau" (blue label), "Grenzweg" (dashed line), and "Achse" (red dashed line).
- Dimensions:** A horizontal scale bar at the top indicates 75+735.00.
